PICOTEGROUP.COM | PICOTEINSTITUTE.COM

Working with you every step of the way! Picote is not only a global award-winning manufacturer, but also a trenchless rehabilitation contractor, CIPP and Coating expert and an innovator with more than 150 global patents. Our technical team members have years of on the job trenchless experience. Picote provides world-class products and support services to customers around the world.

Picote Institute encompasses state-of-the-art training centres located in Finland, UK and the United States, as well as a cloud-based Learning Management System – Picote Institute Online - at www.picoteinstitute.com. The Institute Online offers 24/7 assistance, e-learning courses, manuals, fact sheets, guides, technical documentation and support videos.

The global training centres offer in-depth, practical training and work closely with Picote's Authorised Resellers and Service Centres. Technical teams provide support via phone, virtually and in-person, offering on-site support and technical consulting around the world from the planning stages to site execution.

Need help? Our highly experienced team can provide needed support wherever necessary.

Mini Cleaner

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 26.5kg.
- Speed: 500-2100rpm.

Designed with plumbers in mind. Cleaning, descaling, roots, cutting & coating in small pipes is now easier than ever before. It features a highly flexible shaft allowing work in smaller diameter pipes, even those with multiple 90° bends and P-traps as small as DN50. In the UK, and other countries without syphonic toilets, it can also be pushed through the toilet and into the stack pipe for cleaning. It is fed by a standard wall outlet* making it a very easy to use on almost any job site.

Standard safety features: protective outer shaft casing, operator presence foot control, mechanical safety clutch & E-stop. *Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP
3540000816	230v	€ 3,195.00
3540000816UK	110v	€ 3,195.00

Mini Cleaner +C

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 31kg.
- Speed: 500-2100rpm.

The Mini Cleaner +C features an integrated 30m colour camera that makes viewing of cleaning and cutting jobs easier and helps to make Picote Brush Coating™ setup even simpler. Features a smaller colour camera head that allows it to follow the Mini Cleaner, even through DN50 P-traps & bends.

Camera Specs: Head Diameter 14mm, 30m cable. Stainless steel camera head (IP68). 512hz integrated sonde. 17.8cm colour monitor. Lighting: 8 LEDs with brightness control. Digital footage counter. Record footage via SD card.

Product #	Model	MSRP
3540001816	230v	€ 5,300.00
3540001816UK	110v	€ 5,300.00

MINI CLEANER SERIES

Battery Super Mini Cleaner

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 33kg.
- Speed: 550-2200rpm

The Battery Super Mini Cleaner runs off long-lasting batteries - but it is much more than just a battery-powered version. It is a complete reimagining of what smaller diameter pipe cleaning and rehabilitation equipment can be with new features like an electronic clutch, stepless speed control and a dedicated motor, making it more mobile, efficient, eco-friendly and far more powerful! It makes quick work of cleaning, descaling, root removal, cutting, reinstatements & Picote Brush Coating™ in DN32-75 pipes. Easy to transport and operate regardless of power outlet locations or availability! Includes Standard Battery for up to 3 hours of continuous work. Can run while plugged into a wall outlet. This is not an upgrade, it's a whole new way of working! Safer, stronger, smarter. Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP
3540002816	230v	€ 4,800.00
3540002816UK	110v	€ 4,800.00

Battery Super Mini Cleaner +C

- 8mm shaft
- Cleaning DN32-75
- Cutting DN32-75
- Coating DN32-75
- Max Range: 16m (no ext.)
- Weight: 38kg.
- Speed: 550-2200rpm

Designed with plumbers in mind. Same great features as the Battery Super Mini Cleaner but also features an integrated 30m colour camera that makes viewing of cleaning and cutting jobs easier and helps to make Picote Brush Coating™ setup even simpler. Features a smaller colour camera head that allows it to follow the Mini Cleaner, even through DN50 P-traps & bends.

Camera Specs: Head Diameter 14mm, 30m cable. Stainless steel camera head (IP68). 512hz integrated sonde. 17.8cm colour monitor. Lighting: 8 LEDs with brightness control Digital footage counter. Record footage via SD card.

Product #	Model	MSRP

3540003816UK	110v	€ 6,700.00

Mini Miller

- 8mm shaft
- Cleaning DN50-100
- Cutting DN50-75
- Coating DN50-150
- Max Range: 16m + 10m ext.
- Weight: 27kg.
- Speed: 500-2900rpm.

The Mini Miller is a high-speed, high-torque unit designed for cleaning, descaling and removing roots in DN50-100 pipes and for cutting/reinstatements in DN50-75 pipes. When paired with the Picote Mini Coating Pump or Xpress Coating System it is capable of Picote Brush Coating™ in DN50-150 pipes as well. Weighing only 27kg, it's 8mm shaft has a reach of 16m, which can be extended 10m by adding a shaft extension. It is fed by a standard wall outlet* making it a very easy to use on almost any job site.

Standard safety features: mechanical safety clutch, operator presence foot control, protective outer shaft casing & E-stop. *Operate with a 1.5kVA 110V/16amp transformer in UK.

Mini Miller +C

- 8mm shaft
- Cleaning DN50-100
- Cutting DN50-75
- Coating DN50-150
- Max Range: 16m + 10m ext.
- Weight: 31.5kg.
- Speed: 500-2900rpm.

The Mini Miller +C features an integrated 30m colour camera that makes viewing of cleaning and cutting jobs easier and helps to make Picote Brush Coating™ setup even simpler. Includes two 23mm colour camera heads with 512hz integrated sondes (one self-levelling and one standard). Non self-levelling camera head designed for use during Picote Brush Coating™.

Camera Specs (Levelling & Non self-levelling): Head Diameter 23mm, 30m cable. 17.8cm colour monitor. Lighting: 12 LEDs with brightness control, Digital footage counter. Stainless steel camera head (IP68). Record footage via SD card.

Midi Cleaner

- 10mm shaft
- Cleaning DN50-150
- Cutting DN50-100
- Coating DN50-200
- Max Range: 23m + 10m ext.
- Weight: 65kg.
- Speed: 500-1500rpm.

Designed for cleaning, descaling and removing roots in DN50-150 pipes and for cutting/reinstatements in DN50-100 pipes. Combine with a Picote Brush Coating™ Pump: DN50-200 (Mini or Xpress Coating Pump) and DN70-200 (Maxi Coating Pump).

Offers the strength and flexibility of 10mm shaft. Use even in DN50 pipes with multiple 90° bends!

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch and E-stop. Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP

3551031000UK	110v	€ 6,050.00

Super Midi Miller

- 12mm shaft
- Cleaning DN70-150
- Cutting DN70-150
- Coating DN70-200
- Max Range: 20m + 10m ext.
- Weight: 69kg.
- Speed: 500-1500rpm.

The Super Midi Miller is designed for cleaning, descaling, root removal and cutting/reinstatements in DN70-150 pipes. It has a range of 20m that can be increased by an additional 10m with a shaft extension. It can also be paired with the Picote Maxi Coating Pump or Xpress Coating System to coat pipes DN70-200. Offers the added strength of the larger 12mm shaft paired with a thinner shaft casing for increased flexibility. It is fed by a standard wall outlet making it very easy to use on almost any job site.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch and E-stop. Operate with a 1.5kVA 110V/16amp transformer in UK.

Product #	Model	MSRP
3551031220	230v	€ 6,050.00
3551031220UK	110v	€ 6,050.00

Maxi Miller

- 12mm shaft
- Cleaning DN70-250
- Cutting DN70-200
- Coating DN70-300
- Max Range: 30m + 15m ext.*
- Weight: 89kg.
- Speed: 500-1475rpm.

The Maxi and Maxi Plus Millers are high-speed, high torque powerhouses. Designed for tough challenges like heavy cleaning, removing concrete or failed CIPP liners, lateral reinstatements and Picote Brush Coating™. Featuring a 12mm flexible shaft, they have a range of 30m that can be extended 10m with a shaft extension. *The 240v model can be extended 15m due to increased power capabilities. They can also be used for Picote Brush Coating™ by pairing with the Maxi Coating Pump or Xpress Coating System. Maxi Plus features a detachable control box.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch, and an E-stop.

Product #	Model	MSRP

3560042012UK	Maxi Miller Plus 110v	€ 7,395.00

Maxi Miller Power+

- 18mm shaft
- Cleaning DN100-300
- Cutting DN150-300
- Concrete Removal DN150-225
- Liner Removal DN75-225 (DN75 in straight pipe only)
- Max Range: 18m + 2 x 11m ext.
- Weight: 129kg.
- Speed: 500-1500rpm

The Maxi Power+ is our most powerful Miller for the toughest jobs. Perfect for heavy tuberculation and problem roots. Remove concrete or failed CIPP liners with a range of heavy-duty, specialised tools. Unique power requirements mean the unit needs to be ran off a 3-phase 400v generator. For heavy-duty work in larger pipes.

Standard safety features: protective outer shaft casing, operator presence foot control, electronic safety clutch, and an E-stop.

PICOTE
AQUA
FOR WATER

**High-Speed Cleaning
for Water Pipes**

Picote offers a range of high-speed, high torque machines and tooling for the toughest of challenges. Picote Aqua takes the same technology from our tried and tested Picote Millers used on thousands of wastewater job sites worldwide every day and applies it to water, with easily identifiable machines specific for water usage and a range of tooling to tackle almost any descaling challenge.

**Millers with Food
Grade Shaft Oil &
Antibacterial Coating**

A full range of high-speed multi-use Aqua Millers are available for cleaning and descaling as well as for cutting and coating. We have several Aqua models, including the Midi Cleaner, Super Midi, Maxi Miller and Maxi Power+, to meet your needs. All Aqua Millers use Food Grade Shaft Oil.

Are you working on a job that has a high sanitary requirement? Ask about the option to sanitise your Aqua Miller using Nanotechnology which kills bacteria and viruses.

Easily differentiate between Millers for potable water and wastewater jobs!

Extend the life of pipes with the Picote Brush Coating™ System

Protect pipes for longer with Picote Brush Coating™. Clean pipe thoroughly, then apply two coats for a corrosion barrier. Alternatively, apply additional coats of resin to form a seamless new semi-structural pipe, providing a solution intended to last 30-50 years.*

*Number of coats depends on pipe diameter.

Picote Xpress Coating DN50 Copper Rainwater Stack Pipe

"It simply works" - Timo Jensen, Managing Director of aqendo Berlin, Germany

New with Xpress System 2.0

NEW!

Heated Hoppers

Heated Hoppers are now 5L each. Added heating elements & insulation. Heating automatically turns off when the hopper is below 35°C & shuts off when it reaches 50°C.

NEW!

Software Updates

Software version starting from: 2.xx.xx. Opens up future possibilities & safety features like pressure difference control & spray coating.

NEW!

Lid Locks

Locking levers on the lids. Makes sealing and removing very convenient.

NEW!

Pressure Sensors

Added pressure sensors. Control pumping volume more accurately and set pressure difference limits as a safety feature. This feature requires a software update to 2.xx.xx.

NEW!

Heated Hose Pack - Option 2 Only

Updated Delivery Hose Reel with component hoses and heating element contained in a robust sleeving. Slip Ring on the Reel. Separate plug. 220v and 110v models available.

Picote Xpress Resin

Xpress Epoxy Base and Catalyst mixes at 1:1 ratio. 100% Solids Epoxy features a superior thickness of ≈ 1mm per layer and as little as 1 hour curing time between coats at 25°C using Picote Heater. Larger resin containers reduce waste and costs.

Product #	Resin	MSRP
2220300003B	Picote Xpress Epoxy Base (14kg/11.13L)	€ 532.00
2220300003C	Picote Xpress Epoxy Catalyst (11kg/11.13L)	€ 418.00

Small Diameter Hose Package

2220300011

€ 1,075.00

Go Small! The Xpress Coating System includes the Small Diameter Hose Package for DN32-50 pipes. 1x 2220300008 Mixing Tip (10pcs), 1x DN50 delivery hose package (2m transmission hose from Xpress Pump and 15m of double delivery hose) and 6x of disposable DN32 single delivery hose.

Xpress Coating Pump System 2.0

- For DN32-300 Pipes
- 40 metre range

The new Xpress Brush Coating System provides faster curing times, no waste, less mess and minimal setup time for revolutionary cost and time savings, featuring dual hydraulic resin cylinders. It has a built-in 24v, 882Wh battery providing several hours of working time, or it can also run continuously when plugged in.

The new 1:1 epoxy features an increased thickness per layer and as little as 1 hour curing time between coats at 25°C.

The system also includes a motorised Delivery Hose Reel that stores 40m of delivery hose on board, allowing for easier setup, movement and storage. The included Reel Heating Blanket helps maintain the resin temperature. Additionally, the package comes with a Xpress Static Mixing Tip and Y-Fitting package (10 pieces).

Option 1: Updated Pump, new larger heated fill/resin tanks, new caps on fill/resin tanks, additional lifting handles, flow adjustment, current hose with heated blanket.

Option 2: Same as option 1, but with updated heated delivery hose reel with heated hoses.

+600 Detached houses renovated to date in Finland

+500 Housing Companies/
Commercial Buildings in Finland

+20 km Liners installed every year in Finland

+2,000 Sewer repairs & condition surveys in Finland

NEW!

Midi Roller Battery Powered & Wet-Out Station

Hybrid unit for wetting-out DN50-225 CIPP liners. Lightweight (18kg) and compact unit can be powered by the integrated battery (approx. 10h of working time), allowing you to work anywhere without access to electricity. Chargeable while in use or can be run indefinitely while plugged into a power outlet.

Variable speed and bi-directional controls. Size: 360x486x265mm, Speed: 3-9 m/min (variable), Gapping: 4-14mm (0.5mm increments).

The Wet-Out Station is an innovative, practical addition to the Midi Roller. Quickly & easily set up on the job site. No additional power source needed – powered by the Midi Roller. Built-in wheels and transport handle. Weight: 36kg, Size (folded): 1550x632x287mm. Belt Length: 1.5m

Product #	Model/Part	MSRP
2390000010	Midi Roller 230v	€ 3,585.00

Picote Mini Roller

2390000000

€ 1,595.00

Compact and easy to carry drill-powered roller for wetting-out short DN50-150 liners. Easily adjust roller gap height to meet liner requirements.

Liner Holders

For securing the liner while pouring resin. Custom designed models for the Picote Mini Roller & Picote Midi Roller available.

Product #	Part/Model	MSRP
2360201050	DN50 for Midi Roller	€ 165.00
2360201075	DN70 for Midi Roller	€ 170.00

2360201150	DN150 for Midi Roller	€ 180.00
2360201200	DN200 for Midi Roller	€ 195.00
2360101050	DN50 Narrow for Mini Roller	€ 120.00
2360101075	DN70 Narrow for Mini Roller	€ 125.00
2360101100	DN100 Narrow for Mini Roller	€ 130.00
2360101150	DN150 Narrow for Mini Roller	€ 135.00

Picote Liner Glider

2380000000

€ 435.00

Manual roller for wetting-out DN50-100 liners. Comes equipped with easy to change colour coded and size stamped gap setting rings for almost any liner thickness you may need.

Vacuum for Liners

Specifically designed for CIPP; it not only gives powerful vacuum suction but also provides the higher air volume needed (vs. generic equipment). Designed with an integrated rechargeable battery offering approximately 1 hour 45 min of run time, the pump can be used as a wireless unit or plugged into a wall outlet. Unique and practical features including built-in air filter, rechargeable battery, onboard vacuum cups and clear vacuum hose.

Max.Flow: 136L/min. Max. Vacuum: 800mbar. Max power: 200W, Battery operated: 24V 250Wh (can be used when charging). Vacuum air filter (reusable). 8mm clear suction hose and suction cups.

Product #	Model	MSRP
2390000030	230v	€ 1,995.00
2390000030UK	110v	€ 1,995.00

Picote Pressure Guard

6100000040

€ 1,375.00

A compact, easy to use device for constant monitoring of air pressure, temperature and power. Can be attached to monitor either the air compressor or the liner/equipment. A smart device based on IoT technology. Package includes coupling, sensor & cord and 2 year data subscription.

Air Pressure Regulator

Use PN 2340000001 (0-2bar model) with Connection Collar Installation Tool, Picote Cannons & Picote Drums. Use PN 2340000002 (0-4bar model) for Picote Pro Packers.

Product #	Model	MSRP
2340000001	0-2bar	€ 253.00
2340000002	0-4bar	€ 223.00

Liner Compressor 3.0

2350050150

€ 332.00

Quickly and tightly clamps the end of the liner to prevent it collapsing from loss of pressure while replacing CIPP inversion equipment with a Curing Cap or Picote Cannon Fast Cap. For DN50-150 liners.

Picote Original Cannon

2360000001

€ 1,600.00

Light & transparent tool for short CIPP installations: DN50/15m, DN75/10m & DN100/7m. Includes 3 Inversion Heads (DN50, DN70, DN100) and 1 Fast Cap. Comes with Picote Cannon Air Sealing Package, which allows a CCTV camera to be pushed through the Cannon into the pipe. View the liner throughout the installation curing process!

Cannon Spare Parts

Product #	Spare Part	MSRP
900000504	Inversion Head DN50	€ 105.00
900000505	Inversion Head DN70	€ 112.00
900000506	Inversion Head DN100	€ 119.00
900000828	Picote Cannon Cap	€ 24.75

Cannon Fast Cap

2360000004

€ 54.75

Cure multiple liners after CIPP inversion with the Cannon.

Picote Cannon Cap with Hole

900000759

€ 24.75

Push CCTV camera through the Cannon. Use in conjunction with Cannon Air Sealing Package.

Cannon Air Sealing Package

900000923

€ 12.45

Allows a CCTV camera to be pushed through the Cannon into the pipe. View the liner throughout the installation curing process! Use in conjunction with Picote Cannon Cap with Hole.

Cannon Fast Cap with Smart Heat Cable Inlet

2360000005

€ 195.00

Enables the use of Smart Heat Cable with Picote Cannon in order to make the curing process faster. Package includes both Mini and Maxi Smart Heat Cable gaskets. Remove gasket to use as Standard Fast Cap without heating cable.

Smart Heat Cable

Lightweight and great value. Speed up ambient CIPP curing process up to 35%. Environmentally friendly option with no risk of water damage. No need for hot water or steam. Use with a Smart Heat Curing Cap.

Product #	Model	Length	MSRP
3430000005	230v	5m	€ 745.00
3430000005UK	110v	5m	€ 745.00
3430000010	230v	10m	€ 1,135.00
3430000010UK	110v	10m	€ 1,135.00

3430000015UK	110v	15m	€ 1,550.00

Smart Heat Curing Cap

The Smart Heat Cable is pushed through Curing Cap to the liner.

Product #	Model	MSRP
2340005050	DN50	€ 120.00
2340005070	DN70	€ 142.00
2340005100	DN100	€ 165.00
2340005150	DN150	€ 189.00

Curing Cap

For replacing inversion equipment in order to be able to install and ambient cure multiple liners.

Product #	Model	MSRP
2340000050	DN50	€ 69.75
2340000070	DN70	€ 84.00
2340000100	DN100	€ 98.50
2340000150	DN150	€ 145.00
2340000200	DN200	€ 199.00

Basic Starter Package for Short Liners DN50-100

1010000007 € 4,652.00

Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Liner Compressor 3.0, Smart Heat Cable 10m, Air Pressure Regulator EU 0-2bar & Cannon Fast Cap for Smart Heat Cable. Convenient starter package for installing short liners: DN50/15m, DN75/10m & DN100/7m.

CIPP Starter Packages!

Convenient packages of the necessities for short CIPP liner installations in DN50-100 pipes. Packages available for ambient, steam, and Smart Heat curing with other tools necessary for wetting-out, installing, and monitoring the liner while it is curing.

Basic CIPP Package Ambient for Short Liners DN50-100

1010000008 € 5,100.00

Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Pressure Guard, Air Pressure Regulator EU 0-2bar & Liner Compressor 3.0.

Basic CIPP Package Steam for Short Liners DN50-100

1010000009 € 9,700.00

Includes Original Cannon, 3 Inversion Heads (DN50, DN70, DN100), Mini Roller, Pressure Guard, Midi Steamer, Steaming Head Package for Lining, Air Pressure Regulator EU 0-2bar & Liner Compressor 3.0.

Picote Branch Lining

Pipe branches can be the most challenging part of lining work. The Picote method joins two overlapping rigid liners at the branchpoint. When cured, they will form a uniform and tight branchpoint. The use of separate branch pieces (Connection Collars) is also possible.

The method is very flexible. It can be used at all branches, including small horizontal floor dispersal pipes. Picote Services has been using the method since 2008 and has successfully renovated hundreds of thousands of branchpoints with it.

Picote Branch Lining Glue

Glue used for calibration hose and liner in open-end lining process. Can be used with steam up to 60°C.

Product #	Size	MSRP
1320001001	1L	€ 98.00
1320001000	300mL	€ 49.00

Glueing Tool

For glueing open-end calibration hose to liner.

Product #	Model	MSRP
1320050050	Glueing Tool DN50	€ 266.00
1320050070	Glueing Tool 3D DN50-70/One Size DN70	€ 310.00
1320070100	Glueing Tool 3D DN70-100/ One Size DN100	€ 344.00
1320100150	Glueing Tool 3D DN100-150/One Size DN150	€ 373.00
1320150200	Glueing Tool 3D DN150-200/One Size DN200	€ 407.00

Stainless Steel Cable Tie (100pcs)

900000601

€ 18.25

CONNECTION COLLAR SYSTEM

Install T Or Y Connection Collars With Ease.

Picote's upgraded Connection Collar System seals main line and lateral connections protecting against infiltration and exfiltration. Access from main line or lateral. The Sealed Felt Connection Collar seams eliminate the risk of resin leakage and the black seam thread makes it very easy to visually line up the connection for perfect installations, even inside buildings! Optional steam curing for faster project completion available. The new Picote Midi Steamer was developed with this application in mind. Bypass pumping is needed during opening and installing of Connection Collars.

Use epoxy resin with the Sealed Felt Connection Collars for installations inside buildings, and use epoxy or silicate resin with the new Glass Reinforced Polymer (GRP) Connection Collars for strong repairs underground.

Picote Push Rods

Picote's custom Push Rods are strong enough to push and rotate, while also flexible enough to go through multiple bends thanks in part to unique customized connectors that are small enough to maintain flexibility in bends.

The multi-use Push Rods work with the Picote Connection Collars, Bendy Packers or Grabber Head attachments. There are two versions of Push Rods: a smaller diameter version with extra flexibility for more bends and smaller diameter and a larger version with more rigidity for longer runs and larger pipes. The smaller version comes in two lengths (standard & half-length) and the larger one in standard only.

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod.

Picote Midi Steamer

Provides superior CIPP steam curing. Can be used in conjunction with the Picote Connection Collar System. Featuring a steam/air mixture temperature sensor, paired with a digital thermostat that can be adjusted to the desired setting. Its automatic system shuts down when low water level is detected. Pair with the Picote Pressure Guard to remotely monitor steam outlet temperature & pressure.

Product #	Model/Part	MSRP
2400000001	Midi Steamer 230v	€ 4,422.00
2400000001UK	Midi Steamer 110v	€ 4,422.00
2400000005	Steamer Air Hose 2m	€ 88.00

Steaming End Package for Lining DN50-70 & DN100-150

2400000006

€ 172.50

Allows the Picote Midi Steamer to be used in conjunction with short CIPP liner curing.

Picote Smart Control Unit

1410000047

€ 987.00

Seamlessly manage pressure and vacuum down Picote Connection Collars with a simple flip of a lever, reducing set-up time and improving productivity. Take control of your pressure and vacuum needs in one efficient, robust, and portable package. Brings unparalleled ease-of-use and efficiency. Featuring a versatile dual-function design, this device expertly combines air pressure control and vacuum regulation capabilities.

Installation Tool 2.0

Can be used for both ambient and steam curing. A unique cap design allows the use of an integrated one-way flow/steam port.

Product #	Model	MSRP
1410000021	Head 31mm for DN75 & DN100 installations	€ 310.00
1410000022	Head 51mm for DN150 & DN200 installations	€ 357.00
1410000048	Head 91mm for DN225, DN250 & DN300 installations	€ 485.00

Strapping Tool & Cable Ties

1410000029

€ 1,585.00

1410000031

€ 138.00

Use with the stainless steel Cable Ties (1410000031) to make the connection between the Installation Tool Head and Bladder airtight. Cable Ties come in packages of 25 pieces.

Push Rod 22mm for DN70-150 Pipes - 1.5m

1410000023

€ 235.00

Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing. Available in 1.5m lengths.

NEW!

Short Push Rod 22mm for DN70-150 Pipes - 0.75m

1410000049

€ 190.00

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod. Can also be used with steam curing. Available in 0.75m lengths.

Push Rod 24mm for DN100-250 Pipes - 1.5m

1410000032

€ 260.00

A more rigid rod for longer runs and larger pipes. Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing. Available in 1.5m lengths.

CC Adapter Hose Steinco 161

900003350

€ 218.00

Steinco 161 Adapter Hose for Picote Push Rods. Picote Female -Steinco 161 Female.

CC Adapter Hose Steinco 126 Hex

900003349

€ 217.00

Steinco 126 Hex Adapter Hose for Picote Push Rods. Picote Female-Steinco 126 Hex Female.

Turning Handle

1410000024

€ 292.00

The Turning Handle makes positioning the Connection Collar easy. An air valve facilitates the inflation process, so you are able to control how much pressure/air you let into the Bladder. This allows you to guide the Connection Collar to the precise location before fully inflating it. Can also be used with Grabber on a Picote Push Rod.

Air Pressure Regulator 0-2bar

2340000001

€ 253.00

0-2bar model for use with the Picote Connection Collar System.

Installation Tool 2.0 Air Adapter

1410000025

€ 186.00

Designed to replace the Turning Handle during the wet-out and curing process. This allows the release of the Turning Handle, in order to be used while the previous installation is curing.

Pocket Vacuum

1410000000

€ 219.00

For vacuum and installation of Connection Collars.

Installation Tool 2.0 Accessories Starter Kit

1410000035WO

€ 129.00

1410000035

€ 129.00

Includes Hybrid Tape, Sealing Tape, Cover Tape, Bladder Release Agent, & Bladder Lubricant Oil or Spray in a Picote Tool Bag.

Product number ending in WO comes with Bladder Lubricant Oil.

Hose Clamp

An alternative to the Strapping Tool and Cable Ties. To be used with Installation Tool Heads for clamping Bladders on the head.

Product #	Model	MSRP
9500000385	For DN75 & DN100 installations	€ 4.75
9500000387	For DN150 installations	€ 5.50
9500000391	For DN200, DN225 & DN300 installations	€ 7.25

Bladder Release Agent

1410000039

€ 29.75

Prevents Epoxy from sticking to the Bladder, allowing for easy removal of the Bladder.

Silicone Glue 90mL

1410000038

€ 52.00

For repairing/patching holes on Bladders.

Installation Tool Hybrid Tape

1410000026

€ 8.00

Ideal for securing the Connection Collar before installation. 41m roll.

Installation Tool Sealing Tape

1410000027

€ 28.85

Provides a complete seal between the Installation Tool Head and Bladder. Also has a high temperature resistance to work when using steam. 3m roll.

Installation Tool Cover Tape

1410000028

€ 9.85

Strong tape used to cover the clamps which hold the Bladder on the Tool Head. 50m roll.

Connection Collar Installation Tool Starter Package DN70-100

1410000044

€ 2,514.00

Includes Installation Tool 2.0 Head 31mm for 70-100 Pipes, Turning Handle, 5x Push Rod 22mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 2x Hose Clamp 32-44mm for 31mm Head & Bladder Packing Stick 600mm.

Connection Collar Installation Tool Starter Package DN150-200

1410000045

€ 2,712.00

Includes Installation Tool 2.0 Head 51mm for 150-200 Pipes, Turning Handle, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 2x Hose Clamp 50-65mm for 51mm Head & Bladder Packing Stick 600mm.

Connection Collar Installation Tool Starter Package DN225-300

1410000046

€ 2,878.00

Includes Installation Tool 2.0 Head 91mm for 225-300 Pipes, Turning Handle, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Pocket Vacuum, Air Pressure Regulator 0-2bar, 4x Hose Clamp 87-112mm for 91mm Head & Bladder Packing Stick 925mm.

Glass Fibre (GRP) Connection Collars

Picote has developed a Glass Reinforced Polymer (GRP) Connection Collar. These can be installed using either epoxy resin or silicate resin for a faster result and with the increased structural integrity that glass fibre offers. Longer collar lengths enable the material to meet global standards. The GRP system installation process is simple and customer friendly, with less mess and waste. A fast installation also means a reduction in labour costs and increase in productivity. Use inside buildings or for strong underground repair.

Picote Pro Packer Series

The Picote Pro Packer series offers upgraded tools with new innovation. When needed, navigational guides assist the Packer through various pipe bends and turning into secondary lines. Two different models in various sizes available, the Bendy and 3D Packer.

The **Picote Bendy Packers** are specially designed for repairs in pipe bends but work great in straight sections too! They expand from the middle to ensure a wrinkle-free end result. These packers can be pushed through several bends to the renovation location through the innovative and patented Front Wheel Drive system which allows them to travel longer distances and easily navigate through multiple 90° bends.

The **Picote 3D Packers** are designed for straight repairs in pipes and can repair multiple dimensional offsets. These packers can be pushed through several bends to the renovation location through the innovative and patented Front Wheel Drive system which allows them to travel longer distances and navigate through multiple 90° bends.

Packer Ordering Guide

Use standard Picote Bendy & 3D Packers with Picote's new high quality Push Rods. Both Pro Packer series also available with customised couplings to fit your existing push rods. To order standard Picote Packers with Picote Standard Male Coupling, please use the normal Packer product number (PN). For other coupling types please see the table below and add the product number extension to the standard Picote product number of the Packer size required.

Packer Coupling Required	Product Number Extension
Picote Standard Male	No extension required
Steinco 161 Female	_SC161
Standard EU Male	_EU
Steinco 126 Female without Hexagon (fits to Standard EU Male fitting)	_EUF
Steinco 126 Female with Hexagon	_SC126

Packer Navigation System

Assists the packer through various pipe bends and turning into secondary lines.

Product #	Pipe Size	Diameter	MSRP
1510000001	DN50-70	30mm	€ 100.00
1510000002	DN100-150	60mm	€ 100.00
1510000003	DN200+	80mm	€ 100.00

Front Wheel Drive Glass Fibre Rod

1510000004

€ 559.00

40m of 7.5mm glass fibre rod in a vertical frame. Frame is galvanized.

Push Rod 22mm for DN70-150 Pipes - 1.5m

1410000023

€ 235.00

Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing. Available in 1.5m lengths.

NEW!

Short Push Rod 22mm for DN70-150 Pipes - 0.75m

1410000049

€ 190.00

Use the half-length Push Rod as the last rod close to the pipe access point when only a short additional length is needed. This makes turning and controlling easier during the installation process instead of using a longer rod. Can also be used with steam curing. Available in 0.75m lengths.

Push Rod 24mm for DN100-250 Pipes - 1.5m

1410000032

€ 260.00

A more rigid rod for longer runs and larger pipes. Designed to be both strong enough to push and rotate, while also flexible enough to go through multiple bends when needed. Can also be used with steam curing. Available in 1.5m lengths.

Installation Tool 2.0 Air Adapter

1410000025

€ 186.00

Designed to replace the Turning Handle during the wet-out and curing process. This allows the release of the Turning Handle, in order to be used while the previous installation is curing.

Air Pressure Regulator 0-4bar

2340000002

€ 223.00

0-4bar model for use with Picote Pro Packers.

Bendy Packer Starter Package DN70-100

1510000005

€ 2,758.00

Includes Picote Bendy Packer DN70-100 / 120cm, 5x Push Rod 22mm, Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 30mm.

Bendy Packer Starter Package DN100-150

1510000006

€ 2,808.00

Includes Picote Bendy Packer DN100-150 / 120cm, 5x Push Rod 22mm, Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 60mm.

Bendy Packer Starter Package DN150-200

1510000007

€ 3,408.00

Includes Picote Bendy Packer DN150-200 / 150cm, 5x Push Rod 24mm, Installation Tool 2.0 Air Adapter, Air Pressure Regulator 0-4bar & Packer Navigation System 80mm.

Steinco126 Air adapter for Picote Packers.

Packer Air Hose G¹/₈" to Steinco126 900003270 € 129.35

Steinco126 Air adapter for Picote Packers.

1 - includes 3m integrated push rod, 2 - includes 5m integrated push rod, 3 - includes 10m integrated push rod

Pipe Cutter DN100 Ultra Flex

1250000101 € 752.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN100 panels (1250000100).

Pipe Cutter DN150 Ultra Flex

1250000151 € 775.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN150 panels (1250000150).

Pipe Cutter DN200 Ultra Flex

1250000200 € 835.00

For 12mm Shaft. Used to cut over-shot liners when there is a bend before the cutting location. For spare panels, use DN200 panels (1250000201).

Pipe Cutter Centraliser Package

Includes 2 Centralisers & Spacer Collet.

Product #	Pipe Size	MSRP
1250100100	DN100	€ 115.28
1250150150	DN150	€ 115.28

Pipe Cutter DN70 Panel Package

1250000070 € 247.00

Cut over-shot liners in a straight section of pipe. Includes 4 panels. Use with Picote Smart Cutter™ Hubs. 8mm Shaft: Hub 8.5x20x50 (1000820050) & Hub Disc 2W (1000200020). 10mm Shaft: Hub 35x50 (1001035050A) & Hub Disc 2W (1000200020). 12mm Shaft: Hub 35x50 for DN70-100 (1001235050A) & Hub Disc S (1000200035).

Pipe Cutter DN100 Panel Package

1250000100 € 288.00

Cut over-shot liners in a straight section of pipe. Includes 4 panels & Centralisers. 10mm Shaft: Hub 35x75 (1001035075A) & Hub Disc S (1000200035). 12mm Shaft: Hub 12.5x35x75 (1001235075A) & Hub Disc S (1000200035). Includes 2 Pipe Cutter Centralisers and Spacer Collet.

Pipe Cutter DN150 Panel Package

1250000150 € 302.00

Cut over-shot liners in a straight section of pipe. Includes 4 panels & Centralisers. 10mm Shaft: Hub 35x100 (1001035100A) & Hub Disc S (1000200035). 12mm Shaft: Hub 12.5x35x100 (1001235100A) & Hub Disc S (1000200040). Includes 2 Pipe Cutter Centralisers and Spacer Collet.

Pipe Cutter DN200 Ultra Flex Spare Panels

1250000201 € 453.00

Spare panels for Pipe Cutter Ultra Flex DN200. Includes 6 panels.

Special Drill Head Cutter

For use in cast iron pipes for initial liner opening and blockages. Square design/side blades allow the Cutter to tumble on obstacles/connections to make hole larger than physical size of drill head.

Product #	Drill Size	Pipe Size	Shaft Size	MSRP
1310820029	20x29	DN32-40	8mm	€ 152.00
1310820042	20x42	DN50	8mm	€ 163.00
1311030055	30x55	DN70-75	10mm	€ 175.51

Make A Grab For It!

The Grabber is a must-have on every job site. It allows you to quickly retrieve lost tools or foreign objects blocking a pipe, avoiding costly and time-consuming excavation.

The new Small Grabber is a rework of the old Small Grabber model, now with more grabbing capabilities and an improved operational design. Each Small Grabber package includes four different attachments for retrieving lost or foreign items in DN50-75 pipes.

The Original Grabber is designed for pipes of DN100 diameter and above, and the Large Grabber can be used in DN150 and larger pipes.

Picote Original & Large Grabber

While viewing the location with your CCTV camera, simply push the Grabber into position. The grabbing head is easily rotated so you can locate and grip the item with precision. Then, simply turn on the air valve to get a rock-solid grip on the object to pull it out and retrieve it. Turn off the air to release.

Small Grabber

New and improved! Retrieve lost or foreign objects in DN50-DN75 pipes. The Small Grabber is easy to operate and is built with simple mechanics. To rotate simply turn the Tool Turning Knob in either direction. The Tightening Knob is rotated clockwise to close the Jaw and Lasso Grabber Heads. Includes 4 Grabber Heads. Available in 5m and 10m packages.

Product #	Part	MSRP
2370000041	Small Grabber Package 5m	€ 985.00
2370000042	Small Grabber Package 10m	€ 1,290.00
2370000040	Small Grabber Combo Package 10m & 5m	€ 1,985.00

Spare Parts

Product #	Part	MSRP
2370000043	Small Grabber Jaw Head	€ 245.00
2370000044	Small Grabber Lasso Head	€ 205.00
2370000045	Small Grabber Magnet Head	€ 125.00
2370000046	Small Grabber Hook Head	€ 147.00

Grabber Head for Picote Push Rods

2370000030 € 785.00

Turn your Picote Push Rods into a Grabber by simply adding this Original Grabber Head to your existing Push Rod string. For DN100 and above.

Large Grabber Head for Picote Push Rods **NEW!**

900003863 € 995.00

Turn your Picote Push Rods into a Large Grabber by simply adding this Original Grabber Head to your existing Push Rod string. For DN150 and above.

Picote Grabber

Retrieve lost items or foreign objects.
Range: 10m. Max Range: 30m (with extensions). Used with air compressor. Comes with Grabber Jaw Set 1 and 2. Jaws open to max. 80mm. Fits in DN100 pipes or larger. Max lifting weight 36kg.

Product #	Part	MSRP
2370000001	Picote Grabber	€ 1,600.00
2370000002	Picote Grabber Extension 10m	€ 315.00
2370000009	Spare Grabber Head with Jaws	€ 715.00

Grabber Jaw Set 1

2370000003 € 236.37

Choose Jaw Set 1 to pick up chains and debris with good grabbing points.

Grabber Jaw Set 2

2370000004 € 236.37

Use Jaw Set 2 to pick up more rounded and smooth items which are harder to grip.

Grabber Jaw Set 3

2370000006 € 242.35

The longer jaws makes the Picote Original Grabber easier to use in larger pipes (DN150+).

Picote Large Grabber

Retrieve lost or foreign objects.
Range: 10m. Max Range: 30m (with extensions). Used with air compressor. Comes with one set of jaws. Jaws open to max. 130mm. Fits in DN150 or larger pipes. Max lifting weight 68kg.

Product #	Part	MSRP
2370000010	Picote Large Grabber	€ 2,150.00
2370000012	Large Grabber Extension 10m	€ 395.00

Picote Robot Tools for Schwalm Robots

Larger pipes require bigger tools and a longer reach. When this is the case, Picote has a robotic tool range that is designed to be fitted to the world renowned Schwalm Talpa Robot. Together with Schwalm's engineering team, Picote has created tools that can perform challenging tasks such as grinding, cutting and cleaning. It is also possible to grab lost items or remove obstructions with the Grabber pincher jaws mounted on board with an HD camera for precision work.

Robo Shaft Connector

Combine Picote tools with the Schwalm Robotic System to create a powerful and versatile solution. Go further in distance: 200m. Provide speciality services to the oil industry and for water & sewer mains.

Product #	Size	Shaft	MSRP
1313004125	M14	12mm	€ 106.00
1313004185	M14	18mm	€ 120.00

Robo Cyclone

Descale pipe for long distances. Mount the Robo Cyclone on a robot for efficient cleaning and grinding.

Product #	Pipe Size	MSRP
1420125150	DN150	€ 430.00
1420125200	DN200	€ 480.00
1420125250	DN250	€ 530.00
1420125300	DN300	€ 590.00

Robo Smart Cutter™

Use the robot cutting ball and then follow up with the Smart Cutter™. Grind away seams, welding beads and other inconsistencies in the pipe. Steering option included.

Product #	Pipe Size	MSRP
1421125150	DN150	€ 380.00
1421125200	DN200	€ 390.00
1421125250	DN250	€ 400.00
1421125300	DN300	€ 425.00

Robo Smart Spider

Descale fragile pipes with ease with your multi-use robot. Gentle on brass connections in water mains.

Product #	Pipe Size	MSRP
1422125150	DN150	€ 625.00
1422125200	DN200	€ 725.00

Robo Grabber

1423125010

€ 985.00

Add a grabbing capability to your robot to remove items from hard to reach places. Reclaim a tool or item, weighing up to 35kg. Grab lost items or remove obstructions with the Grabber pincher claws mounted on board with an HD camera for precision work.

Specialised Hands-On Picote Training

Picote has a range of face-to-face training options to help you get the most out of your equipment:

- **General Training Courses** which can be tailored to suit your needs. Get the most out of your Picote Miller and learn the full range of tools and possibilities.
- **Certified Maxi Miller Power+ Training.**
- **Certified Installer Picote Brush Coating™ Training. Including new Xpress Coating System**
- **Connection Collar System Training**
- **CIPP Training**

Tech Support and Virtual Training

Our Team of Technical Experts are available wherever you are in the world! We offer a range of virtual courses to suit your requirements. With a balanced programme of presentations, live demos and an in-depth Q&A, you can learn about the full range of tools and get the most out of your Picote equipment in the convenience of your own location. We also offer training at customer locations and on site support at your job site.

Successful Planning & Implementation with Picote

Rehabilitation projects can be daunting, especially considering all of the small details that need to be taken care of, solutions can often seem out of reach. Picote can respond to this challenge, working with you to produce the necessary planning, as well as finding the best solutions for the job in hand and helping the end client understand what all of this requires, whether they are a utility company, housing association or municipality.

Our award-winning tools and solutions benefit contractors around the world. The Picote Global Technical Team has decades of experience in the trenchless field from planning to completion of projects.

E-Learning & Online Resources

Register for FREE! Picoteinstitute.com, a cloud-based learning & support platform provides interactive e-learning courses, and access to resources including Manuals, Quick Guides, Q&A with Picote Experts, Videos, and Technical Support Materials.
